

World of Wonders

2023-2024

Impact Report

At World of Wonders, we work in partnership with our families to provide a warm, nurturing, and secure environment. Our program is designed to meet each child's physical, mental, social, and emotional needs and to provide age-appropriate educational goals for continual growth and development.

We believe children are unique individuals who grow and develop at their own pace with their own strengths, needs, and interests. We offer a variety of learning opportunities generated from these needs and interests. Choices are provided within a structured environment.

Learning through play and actual experiences is the basis of our program. Curriculum is developed through assessment, the identification of individual and group goals, and planning of appropriate activities. Our strong commitment to working with guardians is evident through parent/family activities and programs

2023 Highlights

Increased family events

Supported staff through additional training

Created a system of Lead and Assistant teachers to create clearer paths of communication

Increased volunteer opportunities

Added a new pre-kindergarten class

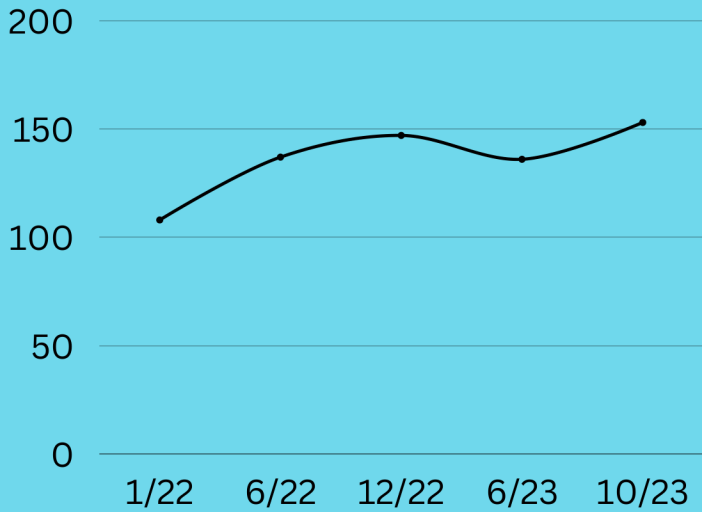

Improved snacks based on parent feedback

Implemented a new ongoing assessment process

Increased daily communication

Doubled staff receiving a higher education

2023 By the Numbers

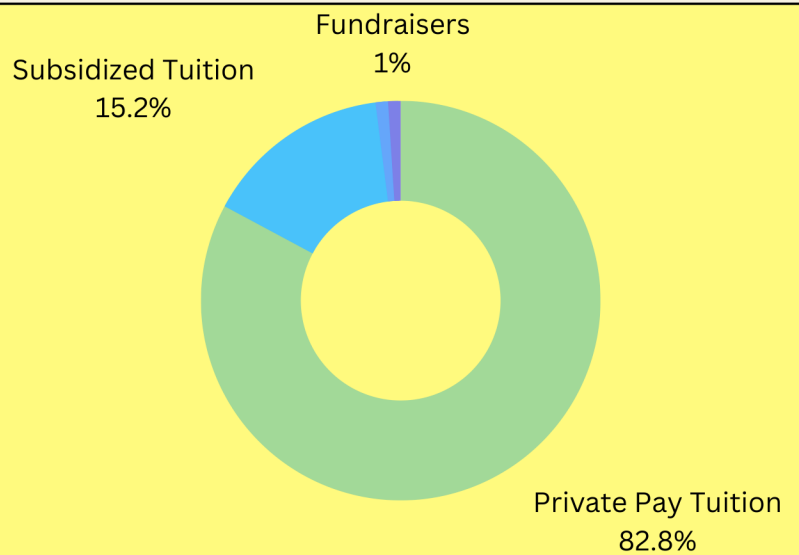

Enrollment

Enrollment has stayed high and the addition of a new classroom brought new friends to our school!

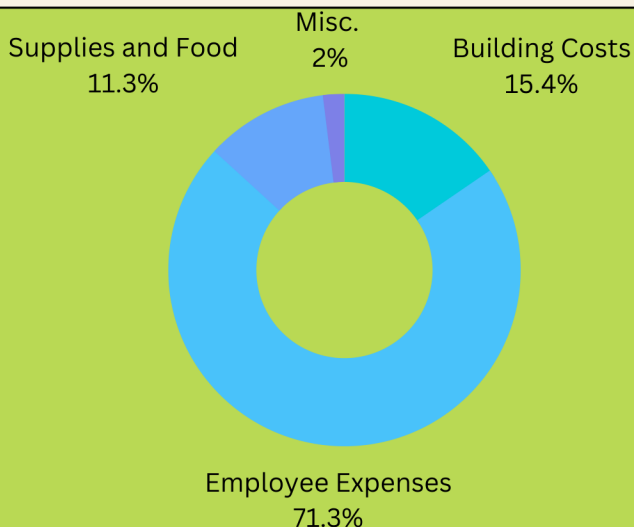

Income

Increased state subsidies have allowed us to invest more in the program.

Expense

This year we focused on meeting the increased demand for care by investing in our long term, high performing staff

2004 REACHING FOR THE STARS

3 STARS

In the second quarter of 2024 we will be applying for, and obtaining a 3 star level through the SUTQ program. Reaching this goal means increasing staff education and meeting increased state standards in over 100 different areas.

MEETING INCREASED COSTS

As prices increase on every item, from milk, to new toys, we will meet the increased costs through stringent budgeting.

INCREASED STAFF EDUCATION

We will continue to support staff as they obtain their higher education. This program is fully paid for by WOW.

PROVIDING A REASONABLE WAGE INCREASE

Due to increased costs of living, we will be providing a wage increase to our staff.

SECURING THE FUTURE OF WOW

This is a pivotal year in the savings to buy our current building. We will be setting aside money each month to help us reach our savings goal
